Using the search results from your preferred search from part 1.1 & 1.2 (or from a new search):

Take the first 5-10 hits

Work out what type of evidence these papers are, based on the Hierarchy of Evidence

Did you find mostly high-quality articles (systematic reviews, RCTs)?

Try to find some examples of articles from other quality levels in the pyramid for your question. Would you want to use the publications from lower levels in the pyramid in your thesis write up?

Why? Why not?
