Menu Print Save Data +[X] Expand All Collapse All

OBJECTIVE:

To touch five Touch Arrays in five different locations in the USOS segment.

[T/P/M Lists Hidden]

1. TOUCHING EVENT

CAUTION

Do not clean your hands before performing the Touching Event, as this will interfere with the collection of the microbes, resulting in improper science execution.

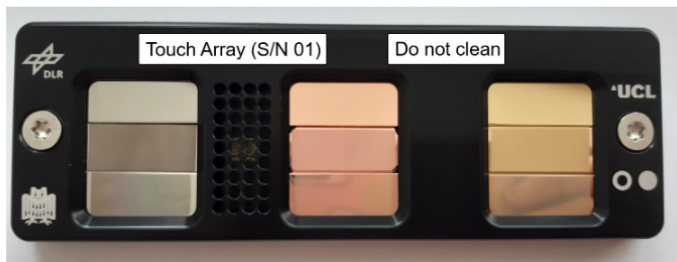

Figure 1. - Touch Array.

Execution Note

Perform last Touching Event according to procedure:
[ESA PDF: SAP - EPO MAURER: 2. NOMINAL: 2.022 - EPO MAURER TOUCHING SURFACES EXECUTION](#)

Deinstallation of all five Touch Arrays according to procedure:
[ESA PDF: SAP - EPO MAURER: 2. NOMINAL: 2.003 - EPO MAURER TOUCHING SURFACES DEINSTALLATION](#)

FOR REFERENCE ONLY - DO NOT EXECUTE:
[65-0422: Touching Surfaces Big Picture Words](#)

Ops Note

Touching Surfaces - Touching, taking pictures, deinstallation and stowage

To perform the last touching event and then to deinstall all five Touch Arrays from Columbus, US Lab, Node 2 and Node 3.
The activity duration includes time for taking a short-range picture before the deinstallation and for stowage of items after the deinstallation.
